The Economic Census profiles the U.S. economy every 5 years. Data for 1997 are available. Data for 2002 will be collected in 2003 and published in 2004 and 2005.

The Census Bureau also publishes a variety of data on an annual, quarterly, or monthly basis. Except as noted below, these "current" programs are limited to national data.

Click on year to go to latest data.

### Programs with national and subnational data

	U.S.	States	Metro areas	Coun-ties	Places	ZIP codes
